Ward location

Description

Sitwell Ward lies in the south central part of the borough, with a population of 12,654 (2021 census). The ward is represented by three members of the Council. Sitwell is a mainly suburban ward covering the parish of Whiston (population 4,878) together with parts of the adjacent Rotherham suburbs of Broom, Moorgate, and Stag. These areas are heavily owner occupied. The ward is the least deprived in Rotherham although there is a small, deprived pocket in east Whiston. The south of the ward is rural and very sparsely populated. The hamlets of Morthen, Upper Whiston and Guilthwaite have only 200 residents between them.

Contents

DATA REFRESHED: 1 FEBRUARY 2024

Rotherham context

Rotherham is one of four metropolitan boroughs in South Yorkshire. It is divided into 25 wards covering a wide range of urban, suburban and rural areas.

Rotherham's population of 266,200 (Census 2021) mostly live in urban areas, however 70% of Rotherham Borough is open countryside.

The 25 ward profiles contain data from a range of sources to enable a greater understanding of the individual local areas. The documents are available as a downloadable and printer friendly version (pdf.) and also via the online interactive tool located within the 'Community and Neighbourhoods' section of the Rotherham Data Hub - www.rotherham.gov.uk/data

The information is divided up into a number of sections, containing data relating to topic areas such as demographics, education, and health and wellbeing.

Section number	Contents
1: DEMOGRAPHICS	Information on the population make up of the ward, including age breakdown, ethnicity and religion (Census 2021)
2: HOUSING & HOUSEHOLDS	Information on housing tenure, types of dwellings and household composition and size (Census 2021)
3: EMPLOYMENT & CLAIMANT COUNT	Data on unemployment claimants aged 16-64 and types of employment within the ward
4: HEALTH & WELLBEING	General health and disability data (Census 2021). Data on life expectancy, death rates and weight measurements of children
5: EDUCATION	Highest level of education (Census 2021). The KS2 and KS4 education outcomes for children
6: DEPRIVATION	Information on the overall IMD rank and two of its subsets
7: COMMUNITY ASSETS	Map showing the location and number of community assets located in (or near) the ward
8: ENVIRONMENT	Information on accessibility to open and green space in the ward (according to the Green Space Index 2023)
9. CRIME	Data showing recorded crime and anti-social behaviour statistics for the ward

Unemployment claimants aged 16 to 64

DATA REFRESHED: 1 FEBRUARY 2024

Unemployment Claimant Count measures the number of people claiming unemployment-related benefits, such as jobseeker's allowance or universal credit claimants. Whilst it does not represent all of those that are out of work (as some people who are not working will not be claiming any benefits) it provides a useful indication of unemployment levels and the state of the local labour market.

Claimant count July 2023

6960	145
Rotherham	Ward

Key findings

In Sitwell ward the total claimant count in July 2023 is 145, which is 2.0% of the working age population. This is lower than the Rotherham average where the claimant count is 4.3% of the working age population.

Ward rank - by percentage of claimants (where 1 is worst and 25 is best)

Data updated monthly.

Types of employment

DATA REFRESHED: 1 FEBRUARY 2024

The table (right) shows the number of employment opportunities (employees) located within the ward, according to their broad industrial group, together with the percentage of those employed by broad industrial group in the ward, and the Rotherham average percentage of those employed by broad industrial group. This data is taken from the 2021 Census.

Key findings

Sitwell ward has relatively few local jobs although the ward has strengths in several sectors, including education and accommodation and food services. Employment levels in the ward depend on opportunities elsewhere such as Rotherham town centre and the hospital, as local jobs are only sufficient for 28% of working age people.

General health

DATA REFRESHED: 1 FEBRUARY 2024

Ward general health as a percentage of the ward population

● Very good health ● Good health ● Fair health ● Bad health ● Very bad health

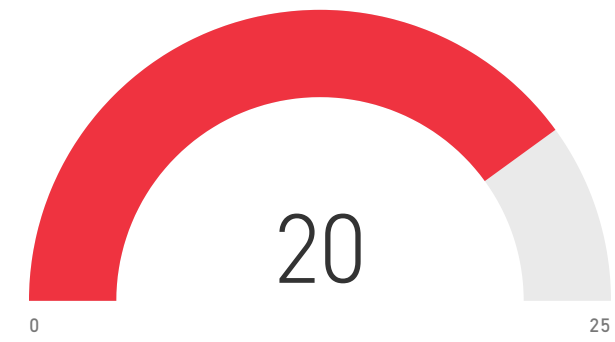

In Census 2021, respondents were asked to assess their general health on a five-point scale from 'very good' to 'very bad'. As Census 2021 took place during the COVID-19 pandemic, people may have been influenced in how they perceived and rated their health.

Good or very good health - ward rank out of 25 - where 1 is best and 25 is worst

Bad or very bad health - ward rank out of 25 - where 1 is worst and 25 is best

Key findings

In Sitwell 45.7% are in very good health, 1.2% are in very bad health. In comparison, in Rotherham 44.2% are in very good health and 1.6% are in very bad health.

Disability

DATA REFRESHED: 1 FEBRUARY 2024

Ward population considered disabled/not disabled under the Equality Act 2010 (%)

● Ward disabled under the Equality Act ● Ward not disabled under the Equality Act

Key findings

According to Census 2021, in Sitwell ward, 18.4% of the population are considered to be disabled under the Equality Act 2010, compared to 21.1% in Rotherham and 17.3% in England.

Data Source

[TS038 - Disability - NOMIS - Official Census and Labour Market Statistics](#)

Data updated every 10 years.

The definition of disability in Census 2021 was: People who assessed their day to day activities as limited by long-term physical or mental health conditions of illnesses are considered disabled. Thus definition of a disabled person meets the harmonised standard for measuring disability and is in line with the Equality Act (2010).

Life expectancy at birth

DATA REFRESHED: 1 FEBRUARY 2024

Life expectancy at birth is the average number of years a person living in a particular area would expect to live based on modern mortality rates in that area. It is a measure of the average length of life and the the best overarching indicator of the health of the population.

Liife expectancy in Rotherham is lower than the national average for men and women. Life expectancy can be impacted by a number of factors and in Rotherham lower life expectancy rates are driven by premature deaths due to respiratory diseases, causes considered preventable and circulatory diseases.

Causes of death - stroke

DATA REFRESHED: 1 FEBRUARY 2024

The deaths from stroke (all ages) measure allows comparison of the number of deaths from stroke for each ward and the England and Rotherham average. The measure gives an indication of the overall stroke burden on the population and reflects both the incidence of disease and the ability to treat it.

These statistics use a standardised mortality ratio (SMR) which describes whether a specific population are more, less or equally as likely to die than a standard population.

A SMR of:

- Less than 100 indicates fewer than expected deaths
- Equal to 100 indicates observed deaths is the same as is expected
- More than 100 indicates excess deaths

Primary School - Key Stage 2 Attainment

DATA REFRESHED: 1 FEBRUARY 2024

In England, Key Stage 2 (KS2) is the term used to refer to the second stage of a child's primary education. It includes the class years 3, 4, 5 and 6. Children are typically aged between 7 and 11 years old in KS2.

At the end of KS2 (Y6) children are assessed in Reading, Writing, Grammar Punctuation and Spelling, Maths and Science with a combination of tests and teacher assessments. To be regarded as 'Secondary Ready' children need to achieve the following:

- Achieve at least the expected standard in the Reading test
- Be deemed to have achieved at least the expected standard in Writing by teacher assessment
- Achieve at least the expected standard in the maths test.

This measure is referred to as reaching at least the expected standard in Reading, Writing and Maths,

Key findings

For Sitwell ward in 2023, there was a total of 150 pupils at the end of key stage 2, of which 6% were disadvantaged compared to 54.5% for Rotherham overall. The percentage of pupils in the ward achieving the expected standard in Reading, Writing and Maths was 58%, compared to 54.5% in Rotherham and 59% nationally.

Secondary School - Key Stage 4 Attainment

DATA REFRESHED: 1 FEBRUARY 2024

During Key Stage 4 (KS4) most pupils work towards national qualifications - usually GCSEs. The compulsory national curriculum subjects are the 'core' (English, maths and science) and 'foundation' (computing, physical education and citizenship) subjects.

Schools must also offer at least one subject from each of these areas: arts, design & technology, humanities and modern foreign languages.

Attainment 8 is a way of measuring how well pupils do in KS4 across a selection of 8 subjects including English and maths, plus:

- 3 subjects from qualifications that count towards the English Baccalaureate such as sciences, language and history
- 3 further GCSE qualifications or technical awards from a list approved from the Department for Education.

Each grade a pupil gets is assigned a points score from 9 (the highest) to 1 (the lowest). Each pupil's Attainment 8 score is calculated by adding up the points from their 8 subjects, with English and maths counted twice and are rounded to 1 decimal place.

Local Secondary School/s

Oakwood High School (Academy) and Brinsworth Academy

Key findings

For Sitwell ward in 2023, there was a total of 145 pupils at the end of key stage 4, of which 4.8% of pupils were disadvantaged, compared to 53.4% in Rotherham overall. The average Attainment 8 score for the ward was 48.7, compared to 43.2 in Rotherham and 46.2 nationally.

Index of Deprivation

DATA REFRESHED: 1 FEBRUARY 2024

The **Index of Multiple Deprivation (IMD)** is a Government index measuring deprivation at a local area level for all areas in England. It provides an understanding of relative deprivation across three different dimensions:

- Overall deprivation
- Deprivation affecting children, and;
- Deprivation affecting older people.

The most recent (2019) index uses 37 indicators across 7 deprivation domains (themes) with a 2013/14 baseline. These domains are:

- Income
- Employment
- Education, Skills & Training
- Health & Disability
- Crime
- Barriers to Housing and Services and;
- Living Environment.

IMD ranks small areas from most deprived to least deprived and divides them into 10 equal groups (deciles). Decile 1 represents the most deprived 10% and decile 10 represents the least deprived 10% in England.

The IMD is not produced at a ward level, for the purposes of these ward profiles scores have been aggregated to calculate ward deprivation rankings.

Narrative

Sitwell ward has a rank of 25 out of 25 wards in Rotherham and is in Decile 6. Of the 25 wards in Rotherham, 5 are in the top 20% most deprived in the country (deciles 1 and 2). The top 3 most deprived wards in Rotherham are Rotherham East, Dalton & Thrybergh and Maltby East.

Ward overall deprivation rank out of 25

Where 1 is most deprived and 25 is least deprived

- Average deprived 40-60%
- Least deprived 60-100%
- Most deprived 10-20%

Income deprivation - children & older people

DATA REFRESHED: 1 FEBRUARY 2024

The **Index of Multiple Deprivation (IMD)** combines information from the seven domains to produce an overall relative measure of deprivation. In addition to the overall deprivation measure, there are two supplementary measures:

- The **Income Deprivation Affecting Children Index (IDACI)** which measures the proportion of all children aged 0-15 living in income deprived families
- The **Income Deprivation Affecting Older People Index (IDAOPI)** which measures the proportion of all those aged 60 or over who experience income deprivation.

Both of these measures are absolute measures, based on the proportion of income deprived households in that area.

The IMD is not produced at a ward level, for the purposes of these ward profiles scores have been aggregated to calculate ward deprivation rankings.

Ward Income Deprivation Affecting Children (IDACI) Rank

Where 1 is most deprived and 25 is least deprived

Ward Income Deprivation Affecting Older People (IDAOPI) Rank

Where 1 is most deprived and 25 is least deprived

Narrative

In Sitwell ward, the proportion of all children aged 0-15 living in income deprived families is 8.1% and the proportion of those aged 60 or over who experience income deprivation is 8.5%. The ward with the highest proportion of children aged 0-15 living in income deprived families is Dalton & Thrybergh ward at 39.1%. The ward with the highest proportion of those aged 60 and over who experience income deprivation is Rotherham East ward at 36.9%.

Age group	No. of income deprived in ward	Ward % income deprived	2019 Roth average percent
Children 0-15	185	8.06	21.67
All people	995	7.44	16.80
Older people 60+	350	8.54	16.30
Working age 16-59	460	6.59	15.35

Access to green space

DATA REFRESHED: 1 FEBRUARY 2024

Ward location

Number of people in the ward
not within a 10 minute walk of
green space

4989

Square metres of green space in
the ward per person

17.20

Does the ward meet the Green Space Index
minimum standard of green space per
individual?

No

The availability of open green spaces within a close walking distance is critical since it supports physical activity and encourages us to engage in regular exercise.

The source of the data contained within this section is the Green Space Index 2023, which is commissioned by The Ordnance Survey and undertaken by Fields in Trust on their behalf.

For more information, please visit www.fieldsintrust.org/green-space-index

Levels of crime in the ward
