I have previously commented during the Wickersley Parish Council consultation period but in summary and as a long term resident of Wickersley, stress the following points:

1. Tighter control over expansion within the parish boundries and care to retain a residential area
2. Care, promotion and peservation of Wickersley's heritage and past including historic buildings and areas within boundries and developement of a village museum/heritage centre
3. Affordable housing for local residents mandatory in future housing developements
4. Care for Wickersley's aging population eg residential care homes or sheltered accomodation
5. Consideration and encouragement for provision of youth orientated projects for the young of Wickersley

The majority of the older generation of Wickersley think that it's too late and the damage to the village and surrounding area was started, and continues to the present day, from the early 1970s. However action can be taken now to prevent the disappearance entirely of Wickersley "the village" and to create a good place to live for it's residents and a great place to visit.

Many Thanks
