The Company Secretary
Grange Landfill Limited
559 Carlisle Street East
SHEFFIELD
South Yorkshire
S4 8DT

Dear Sir/Madam,

Environment Act 1995, Section 108 (1), (4) and (5)

Permit EPR/DB3803MN

**Monitoring Information Request: Grange Landfill Limited, Droppingwell Road,
Rotherham (Watson's Tip)**

I am writing further to my letters of 4th October 2017, 2nd November 2017, 4th December 2017 and 7th March 2018, and your letter to the Council of 14th December 2017.

Unfortunately I do not appear to have received a response to my letter to you of 7th March 2018. As you are aware, the Council is concerned that the existing tipped area of Watson's Tip might present a significant risk of harm to the environment or human health. You will know the information that is available that suggests that the site is highly toxic.

The Council has asked previously requested information from you and asked you to confirm whether or not the monitoring data that has been supplied to the Environment Agency is the extant information that your company directors have in relation to the contents of this site and the potential risks. The Council is advised that this might not be the case and that your company directors may have further information that demonstrates that the site does potentially present a risk of harm.

**Regeneration and Environment
Community Protection Unit**

Riverside House, Main Street, Rotherham, S60 1AE

The Council would request that you release any information that has not been so far provided to the Environment Agency, or the Council, that relates to potential risks associated with the contents of the tipped area. This will allow the Council to consider whether any risks are presented.

Your response within seven days of the date of this letter is requested.

Yours sincerely

Damien Wilson
Strategic Director
Regeneration & Environment
