**Q1. To which document do your comments relate?** Neighbourhood Plan Draft Submission Version

**Q2. Do you wish to?** Support

**Q3. Please provide your comments below making clear which part of the document you are referring to (specifying relevant paragraphs, tables, figures, boxes or appendices).**

General comments. I would suggest the main road be pedesrianised with vehiclure acess....with glass covered areas to encourage evening use ..wine bars etc more restuarants ...the rear of the shop areas to be developed for parking ..with alleys through to the main street.....and more benches to enable older people to walk more around the area ....when i walk to the town from Swirston Hill road the first bench to sit down on is by the pold library we need benches at least evey 2000 yards .....all the shop fronts to be designed to be olde world with suitable old victorian style signs. with old fashioned steet lamps to make it a place that is welcoming and a place you would want to visit and shop around.....It could aslo have gates at each end to create a securte site automatically closing at say 1am each night ...with discrete security camers .....give rate free property to a bank so we have one bank at least inside the enclosed area. An out door area for muscicians ....it could be made really nice with paved and planted areas and easy vehicle access to backs to get into area via attractive old fashion alleys with attractive lamps....

the main town area

**Q4. Suggested modifications. If you consider that amendments should be made then it will be helpful if you could put forward any suggested wording changes.**

choose a style for the town ...Victorian, Edwardian , sixties what ever style residents would like .....

also free charging points to rear of shops and parking as many as meadowhall...people will want to shop and charge there vehicle especially if its free .... the enclosed area to also offer free wifi .....i would also stop traffic through top end of town near church and would take via the comprehensive school to lordens hill ....barleycorn road ...and top road blocked off and pedestrianised apart from access, all main traffic bypassing the centre of the town

**Q5. Do you wish to be notified of the Council's decision under Regulation 19 of the Neighbourhood Planning Regulation 2012 whether to accept the Examiners' recommendation? (please tick)**

Yes, please notify me of the Council's decision
